

how to melt gold with sodium borate or borax by induction heater

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Borax (sodium borate) will increase gold melting speed, gold become boiling after adding borax, the black material is borax.

Borax won't mix with gold, they'll peel off in the water
